A family-founded business.

It all started with a few simple beans. Founders Trevor and Rebecca Smith have always cherished the experience of sharing a laugh over a great cup of coffee. As true coffee aficionados, the two began to experiment with different ways to create and enjoy their favorite beverage, from bean types and roasting profiles to brew times to filtering options.

Letting the secret out.

Fueled by their passion and inspiration from seeing artisan food trends spilling into restaurants and grocery chains, Trevor and Rebecca just couldn't keep their secret any longer. They began selling Secret Squirrel at a local farmers market and quickly built a community of cold brew loyalists.

Spreading the buzz.

Now a part of Pure Steeps and partnered with the largest independent natural foods distributor, Secret Squirrel is available in select stores and continues to grow with the support of cold brew lovers everywhere. Keep your eyes peeled for our cold brew in your area and remember - squirrels are intelligent creatures. They know great coffee.

Simple. Bold. Drink it in.

Fancy a latte? Jonesing for a mocha? Need something ready-to-go?

Why Cold Brew?

Sometimes squirrels like to hibernate. Burrow behind a wall of warmth. And sometimes, coffee can hibernate. Hide behind mounds of sugar and creamer and other additives that bury its flavor. But we don't believe in having our coffee burrow behind anything.

Our handpicked organic beans are roasted to perfection, cold brewed for 18-24 hours, double filtered, and bottled quickly. This process releases the full bold flavor of our beans without any bitterness or acidity. A taste so smooth, you won't need to hide it beneath anything.

Pure. Simple. The secret is out.

10 oz. Caffe Latte

10 oz. Dark Chocolate Mocha

10 oz. Vietnamese Latte
